

ISMIE's Risk Rewards program continues to support policyholders as they provide safe care to patients and navigate the ever-evolving world of medicine.

2004

BEGINNINGS

ISMIE launches its Managing Risk program, offering discounts to those participating in risk assessments and educational activities.

FELLOWSHIP

Our core Fellowship curriculum, now a mainstay in our educational programming, was created as a means to provide excellent reinforcement of the pillars of risk management: documentation, systems, and communication.

2007

RISK MANAGEMENT SYMPOSIUM

ISMIE launches its first annual Risk Management Symposium, an event offering unparalleled insights and practical advice from the cutting edge of patient safety and risk management.

2016

ADAPTABILITY

Continuing our relentless efforts to serve policyholders, we began to offer virtual risk assessments and other resources to support physicians during the COVID-19 pandemic crisis.

2020

2024

WHAT'S NEXT?

The healthcare landscape is always evolving. The ISMIE Risk Rewards program continues to address the most pressing issues facing healthcare professionals and offer strategies to reduce risk.

From gaining a better understanding of artificial intelligence to best practices for cybersecurity, the ISMIE Risk Management program is a trusted source of support for policyholders, just as it has been for the past 20 years.

Celebrating 20 Years of ISMIE Risk Rewards

ISMIE Mutual's innovative risk management and patient safety program has been helping physicians and healthcare professionals reduce exposure, advance their quality of care, and improve defensibility against claims since 2004.

The healthcare landscape and the needs of medical professionals are ever-evolving. ISMIE knows it is critical to be adaptable to the needs of policyholders and their staff to provide them with the effective support they need. It is out of this need that the Risk Rewards program was born.

REAL VALUE

On average, ISMIE Risk Rewards program participants have:

- 18% fewer claims reported
- 22% fewer claims closing with an indemnity payment (CWI)
- 16% less Loss and Loss Adjustment Expense (LALAE)

From the beginnings of ISMIE's Risk Rewards program in 2004 to the creation of our Fellowship curriculum in 2007, and the launch of ISMIE's first Risk Management Symposium in 2016, Risk Rewards continues to adapt, innovate, and provide unparalleled support to participating policyholders, just as it has done for the past 20 years.
